Short term jobs and projects

- I was working on frontend of epoll system written in Vue.js. Backend was in Java. Project status is unknown.

- I did several FreeCodeCamp projects available here: `https://codepen.io/w96k`

- Semantic UI theme for a blog based on Hugo: `https://github.com/w96k/hugo-sui-blog`

Skills

```
PHP Symfony Sonata Admin Mysql Python Django Flask
Javascript
React Vue.js SQL Bootstrap Docker Emacs OOP DDD
SOLID Testing
```

- Developing backends using Symfony (PHP) and Django/Flask (Python)

- Experience of using programming languages profesionally: PHP, Python, Javascript

- Single Page Application development based on react.js / vue.js / ember.js

- Experience of using PostgreSQL/MySQL and knowledge of SQL

- Experience of using CSS frameworks: Bootstrap, Semantic UI, Mini.css

- Software Testing (unit testing, selenium)

- Experience of using Docker

- Experience of using continious integrations systems: Gitlab CI, Jenkins

- Experience of using GNU/Linux and BSD distributions: Debian, Guix, Slackware, OpenBSD

- Experience of using version control systems: Git, Mercurial

Programming interests

- Visiting or watching recordings of IT conferences

- Functional Programming and languages based on lambda calculus (LISP, Scheme, SML/Ocaml, Haskell, Idris)

- "Low-level" programming in C(++), Oberon and Common Lisp

- Programming Language Theory. I also like to discover ancient technology with interesting ideas

- Interest in self-modifying (or image-based) languages like Lisp, Smalltalk, Self and Oberon

- GNU Software and GNU+Linux distributions

- Emacs text editor, org-mode and latex

- Writing posts on w96k.dev and my mastodon

- Moderating programming groups in Telegram (Emacs, GNU Guix, Lisp groups)

- Free (Libre) Software

Languages

Russian	Native
English	- Reading documentation and books
	- Writing posts
	- Casual conversations

Hobbies

- Playing piano and composing music

- Bicycle and tourism on bicycle

- Swimming

- Math

- Philosophy
